¹ Amounts are subject to change with no obligation to reconcile these estimates. Amounts may not visually foot due to underlying data.

² Amortization of intangibles represents an estimate for acquisitions completed as of November 1, 2024 and does not include estimates for potential acquisitions, if any, during FY25.

³ Consists primarily of severance expenses, payroll taxes associated with stock-based compensation, facility action costs, transaction-related expenses, impairment charges, and incentive charges related to equity investments. No estimate is included for severance expense as it cannot be reasonably estimated at this time.

⁴ No estimates are included for potential fair value adjustments on strategic investments given the potential volatility of either gains or losses on those equity investments.

⁵ The aggregate adjustment for income taxes is the estimated combined income tax effect for the adjustments shown above as well as an adjustment for discrete tax items. Beginning in Fiscal 2025, our non-GAAP income tax is calculated using a fixed estimated annual tax rate.
